

The Story of Mainline Steam is now available.

This is the history of Mainline Steam from its inception by Ian Welch, through to today.

Its 90 pages traces the history of the locomotives currently operated by Mainline Steam, and those waiting to be restored. Ian Welch openly discusses his reasons for starting the organisation, his highs and lows and his love of rail and hopes for the future.

This is the most comprehensive history ever written of one of New Zealand's leading preservation organisations.

Don't miss your chance to obtain a copy of this entertaining and fascinating read.
